My dear ones:

Just arrived here in good shape, I am very tired. Helen seems O.K. This is Exeter I don't know whether will take car over to L. Cove pretty soon - they run hourly, or we may burn around here for awhile - looks like quite a good sized town. Helen has been counting the rivers & raving over the wild flowers; the pasture is very poor & grain is short. Had a bad walk at Ely last night but got down to depot about 30 mins before train left, got right on & put Sis right to bed. She was so tired didn't go to sleep for long time, kept her up so could look out until we were asleep. She is so good & having a good time. See what a good time you & Jack are having. Hope you wish you were with us.
